This Reimbursement & Coding Reference Guide is intended to illustrate some commonly billed codes for shoulder and knee arthroplasty procedures, with associated assignment national average rates for inpatient (MS-DRG), unadjusted outpatient payment rates (APC) and estimated adjusted payment rates for the ASC. All content in this document is informational only, general in nature and does not cover all situations or all payers' rules or policies. The service and the product must be reasonable and necessary for the care of the patient to support reimbursement. Providers should report the procedure and related codes that most accurately describe the patients' medical condition, procedures performed and the products used. This document represents no promise or guarantee by Exactech regarding coverage or payment for products or procedures by Medicare or other payers. It is the sole responsibility of the provider to determine which code is appropriate for each patient or procedure. Exactech specifically disclaims liability or responsibility for the results or consequences of any actions taken in reliance on information in this guide. The information in this document was obtained from third party sources and is subject to change without notice, including as a result in changes in reimbursement laws, regulations, rules and policies.
